Howard Gardner's Theory of Multiple Intelligences Many of us are familiar with three general categories in which people learn: visual learners, auditory learners, and kinesthetic learners. Beyond these three general categories, many theories of and approaches toward human potential have been developed.

Multiple Intelligences: Theory and Application Hope Phillips Columbus State University Abstract Howard Gardner's theory of multiple intelligences has challenged the historical view of intelligence as a fixed

quantity since he first published *Frames of Mind* in 1983. Gardner prefers to describe cognitive ability as a set of eight intelligences.
